- ✗ Games
- ✗ Open internet browsing
- ✗ Installing other apps
- ✗ Changing the system settings

What students can use

- ✓ Study material, books and videos
- ✓ Munja AI for doubts and practice
- ✓ Exams and homework in VidyaUpasna
- ✓ Live classes
- ✓ Camera, for study use only

On a normal phone, social media comes before study

Children aged 14 to 16 in rural India who can use a smartphone: what they used it for in the week before the survey.

Source: ASER 2024 (Rural), Pratham. Survey of 649,491 children in 605 districts.

Why a locked tablet

Almost 90% of these children have a smartphone at home, and 82% know how to use one. The device is already in their hands. The question is what it is used for.

On the EduSoulX tablet there is nothing to switch to. The student opens the tablet and finds only study.

One tablet, one job: study.

A normal tablet and the EduSoulX tablet

	A normal tablet	EduSoulX tablet
Social media and games	Open to the student	Blocked
Internet browsing	Open	Blocked
Installing new apps	The student can install any app	Only the apps given by the school
